

## Active Shooter Response

**BLACKHAWK!**

**UNCLE MIKE'S**  
**LAW ENFORCEMENT**

United Shield International

**BLUE FORCE GEAR**

**Ballistic NIJ 3A with Comfort  
 Fit # BA-3AC-TC**

Product Features

- The shell is manufactured utilizing advanced Thermoplastic Aramid and Glass Fabric Composites, raising the level of protection while reducing the weight to two pounds.
- The Comfort Fit System includes a set of fit pads that are made of a soft polypropylene outer material to facilitate wicking of the wearers perspiration from his or her skin and a reticulated inner foam pad designed to hold the moisture for evaporation which will cool the head.
- Helmet shell meets or exceed Level IIIA National Institute of Justice 0106.01.

**BlackHawk Dynamic Entry  
 Active Shooter Hallagan Tool**

Product Features

- The Active Shooter Hallagan Tool combines both a non-sparking fork end and a more robust stainless steel wedge and horn.
- Handles will not absorb glass shards, are electrically non-conductive to 100,000 volts AC and self-extinguishing
- Wedge features non-skid friction ridges for added stability when breaching even the most robust doors
- For additional safety, the ergonomic handle is designed to ensure proper hand placement

**Maxpro DBA-IV Personal  
 Body Armor Level IV Kit**

Product Features

- This plate is manufactured utilizing advanced Thermoplastic Composite (TPC) Ballistic Materials in conjunction with a pre-shaped Alumina ceramic panel. Max Pro's proprietary molding technology allows for a superior interface bonding between the ceramic and the composite, which translates into not only reliable ballistic performance but also an exceptional ability for the plate to maintain its integrity after being shot. This attribute permits the plate to maintain its ballistic performance beyond the first shot (multi-hit), which has been demonstrated in independent testing at certified testing facility.

We supply best of class gear to federal, state and local government agencies through GSA Contract GS-07F-5508R. We are proud to be your total GSA solution.
